

Labor Governments are good for Brunswick. Under Liberal Party governments we have suffered neglect and cutbacks.

Labor governments believe in the things that are important to our community—state schools and public transport, public housing and hospitals, support for community organisations and democracy—and investing in people, more nurses and more teachers.

ABOUT CARLO CARLI

Carlo was born in Melbourne and grew up in Coburg. Carlo now lives in Brunswick with his partner Siobhan and their 3 children. Carlo was first elected to Parliament in 1994. As the local MP he helps individuals with problems, work with local organisations, and lobbies for resources for the area.

In the Bracks Government, Carlo is the Parliamentary Secretary for Infrastructure, working in the field of transport.

The Bracks Government

- 7000 extra nurses*
- 6000 more teachers*
- Better & modern schools*
- Combating water & climate crisis*
- Reducing disadvantage*
- and there is more to do.....*

And in Brunswick....

- New and upgraded school facilities*
- A new police station*
- Better Upfield line & trains*
- New, more and safer trams & buses*
- Supporting new arrivals and refugees*

LABOR FOR BRUNSWICK

Meeting the Climate Challenge

Steve Bracks & Labor are acting to combat climate change

We have set renewable energy targets.

We have protected old growth forests and created 19 new national parks.

We have created new action plans in sustainable planning, transport & energy.

We have built five wind farms and are supporting the construction of a new solar energy plant in Victoria's north west.

Greens blow cold on wind farms

“The Victorian Greens have promised to stop the construction of wind farms opposed by local residents”

The Age, August 16 2006

Renewable energy should be beyond politics and kept out of the ballot box.

It is extremely disappointing that the Greens political party have chosen not to do this.

The Greens political party has abandoned principle to chase votes in East Gippsland.

Labor has made clean energy a priority - **the Greens are playing games with our future. They can't have their cake and eat it too.**

LABOR'S ENERGY PLAN

Force energy retailers to buy more renewable energy

Invest in wind, solar, biomass and tidal energy technologies

Encourage industry and households to become more energy efficient

Drive investment in renewable energy generation—including wind & solar farms

Support community programs to reduce energy use, like the Moreland Energy Foundation

Italian

Nell'interesse di tutti, votate Labor.

Con i Labor abbiamo un governo consapevole delle sue responsabilità. I servizi legati alla sanità, alla scuola e ai mezzi di trasporto sono un bene prezioso da mantenere e migliorare.

Carlo Carli ed il governo Labor di Steve Bracks capiscono e lavorano per la nostra comunità.
